NOTE TO INDEX

Since page numbering has been (regrettably) erratic, articles are identified by the volume and part in which they appeared; Policy Studies Volumes consist of parts in July, October, January and April. The symbol 'T' refers to a trial issue given limited circulation in the spring of 1979; volumes 1,2,3 and 4 begin in July 1980, 1981, 1982 and 1983. The titles of articles have in some cases been abbreviated. The numbers to the left of the authors' names are used to identify articles in the subject index.
